## DETAILED ACTION

### *Election/Restrictions*

Claims 1-8, 11-27, 29, 31-34 and 36 are allowable. The restriction requirement, as set forth in the Office action mailed on 2/28/2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 6-8, 11, 16-21, 29, and 31-33 are directed to non-elected species no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### *Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance: The prior art teaches the use of a camera with an optical sensor a detector and an image storage section and a buffer memory. However, the prior art does not teach buffer memory storing a plurality of sequential images from the simultaneously derived image segments corresponding with images of scenes seen by a person looking forward and a switch coupled between the buffer memory and the

image storage and controlled by the detector arrangement to output a delayed replica of the image segment, selected to be recorded by the detector.

The Prior art further does not teach temporarily storing plural sequential images from the simultaneously derived image segments and recording a delayed replica of the image selected to be recorded in the controlling step. Therefore, the claims are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
